Response to Amendment

Applicants' amendment to the Non-Final rejection filed on October 20, 2003 has been entered on October 30, 2003.

Therefore newly presented claims 11 to 19 are currently pending in the Application.

Claims 1- 10 have been cancelled by the amendment.

Reasons for allowance

Claims 11-19 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which include a packaged semiconductor device including the combination of a mounting surface that is coplanar with said second surface of the die and wherein the capsule partially enclosing the lead frame and the die does not enclose that leaves exposed the entire mounting surface of each side of the leads and the entire second surface of the die.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
